Re: GN Docket No. 15-319, CommScope Spectrum Access System Certification Test Report Card

Dear Ms. Dortch:

CommScope submits our attached Spectrum Access System (SAS) Certification Test Report Card that indicates that the CommScope SAS passed all tests administered by ITS in the SAS testing phase that concluded on April 30, 2019. The remainder of the report contains highly confidential test results information.

A redacted version of the proposal is being filed electronically through the Commission's Electronic Comment Filing System. In addition, one copy of the confidential version of the Report Card is being delivered to the Office of the Secretary. Electronic versions (e-mail) of the Report Card are being sent to Paul Powell, Navid Golshahi and Kamran Etemad of the Wireless Telecommunications Bureau and Julius Knapp of the Office of Engineering and Technology.

Please feel free to contact me if you should have any questions or if you require any additional information.

Respectfully Submitted,

/s/ H. Mark Gibson
